

frontrow™

Specialised **sound** pro
distribution system
Classroom or meeting room

We have three models of Frontrow™ Pro, Tempo and To Go available. In this newsletter we feature the benefits of Frontrow™ Pro and Frontrow™ To Go.

Frontrow™ Pro sound field system can benefit your students and teachers!

- Improve the learning environment.
- Engage students and improve attentiveness in the classroom.
- Foster control and orderliness, increase on-task behaviour, boost comprehension.
- Reduce vocal strain and fatigue for teachers.
- Support students suffering from Otitis Media (middle ear infection).

A typical sound field system consists of an infrared emitter and a lapel wireless microphone worn by the teacher and 4 speakers located around the 4 walls of the room which actually make the "Field" integrated with specially designed sensors. Amplifying the teacher's voice raises the signal to noise ratio which improves speech intelligibility and reduces vocal strain. An extra hand held microphone can be provided for students to pass around, so they can be amplified too.

When used in general or special education classrooms

Frontrow™ Pro:

- fosters a successful learning environment
- increases student attentiveness, participation, comprehension and literacy scores;
- significantly reduces behaviour referrals;
- reduces teacher absenteeism due to vocal fatigue.

Key Features

- Robust and easy to operate
- Lightweight wireless pendant microphone offers superior comfort and sound quality
- Optional mic for team-teaching or student pass-around
- Integrates stereo sound seamlessly from other classroom audiovisual equipment

™ Trade mark of Phonic Ear Inc, USA.
