

## Building the Sound Field Revolution

Did you know there are provisions in the government roll out for sound field amplification in classrooms? You can use **P21 funds** for specific needs and classroom upgrades listed in the **national pride funds** specifications.

**Don't overlook the acoustics of your new classrooms.**

Reverberation is a major factor in the quality of sound in your classrooms. New architecture designs look great but can be acoustic nightmares.

### Welcome to 2010!

Happy New Year to everyone and I look forward to meeting with many of you during the year while on my travels.

This issue features why you should consider a sound system in all classrooms and how to choose a sound system suitable for your needs.

**Allyson and Andy go West !**

Read story overleaf.

While we are moving into Term 1 with full speed, please consider an opportunity to discover more about amplified sound in your classrooms and also consider a free no obligation trial of a portable system, to see for yourself.

I look forward to hearing from you. Allyson.

### Consider a sound check !

Printacall is happy to make an acoustic assessment of your school classrooms and help with ideas and strategies to help you create the optimum learning environment. Just call to arrange an assessment!

**NOISE** is the number 1 enemy of learning. You wouldn't build a school without lights would you?

### Gold Class

### PROVIDE THE OPTIMUM LEARNING ENVIRONMENT

Children are accustomed to surround sound home theatre entertainment even in their own homes, the four speaker FrontRow™ Pro Digital, sound field system can provide this environment during their most important listening times - school!

### HAPPY STAFF – HAPPY CLASS!

*Staff absenteeism is disruptive to a classroom.*

Teachers who use FrontRow™ take fewer voice – related sick days.

## Energy matters

**The FrontRow™ Pro Digital is one of the most energy-efficient classroom sound systems available on the market today.**

2 Doig Avenue DENISTONE EAST 2112

(Ph.) 02 9809 2392 | (Fax) 02 9809 2345 | (TTY): 02 9809 1283

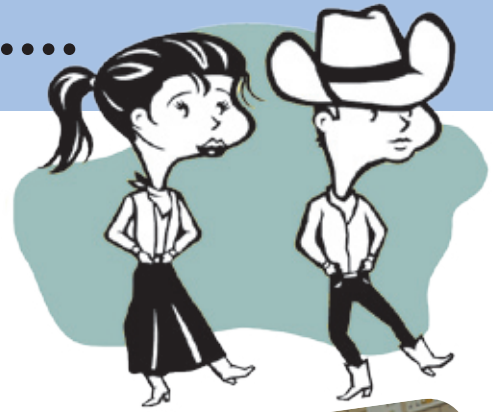

Email: sales@printacall.com.au | Web: www.printacall.com.au

Actual system has 4 speakers, infrared sensors and lavalier microphone.

# Allyson and Andy Go West.....

Both the Catholic and State education systems in the Greater Western NSW region are to be congratulated on their initiative and vision to provide superior learning environments for the children in the region. Using BER monies and funds raised through proactive school communities, sound field is installed in many K- 2 classrooms.

with FrontRow™ Pro Digital system.

Judy Aird and Installer Bruce  
Willis, Orana Public School.

Many trips were made in 2009 to the Western NSW Region and Bathurst Diocese. School talks and afternoon tea with the best scones in Australia created many great friendships which will definitely continue.

Demos and trials of the portable FrontRow™ To Go system were initiated by the Dubbo Hearing Team. Even Prime TV did television coverage on FrontRow™ systems. Attending the "Healthy Ears" school workshops in the Western Region gave an opportunity to emphasise to school staff the function and essential need for sound field in classrooms attended by children suffering from Otitis Media.

## No Installation

### If Portability is the Answer

FrontRow™ To Go's twin speaker tower is capable of delivering superior quality sound up to 45 metres. Take it outside on a charged battery for up to 8 hours. With no installation needed you can move it from room to room. The two FM microphones allow effective team teaching or pass around for student participation.

### Interested in a Trial?

Many schools have taken up our trial before you buy offer. Be warned though once you have had our portable FrontRow™ To Go system at your school for 10 days you will wonder how you managed without it. Conditions Apply.
